(By Associated Press.)

NEW ORLEANS, September 27.-The remarkable feature of the yellow fever report to-day is the small number of new cases, the smallest reported on any day since the early days of August. The death list is still holding on, as it always does towards the end of an epidemic. Among the deaths are those of

two negroes.

The chapel of the convent of Perpetual Adoration on Marais Street was fumigated to-day, No more cases have developed there.

Steady Improvement.

Steady Improvement.

The news from the country indicates a steady improvement at all of the old points of infection, though two of the recently discovered points are beginning to show activity. The country reports showed fifty-four new cases and three deaths.

The heaviest rainfall that New Orleans has had for many weeks, began to-day before daylight. It rained steadily for more, than two hours, completely flushing the gutters.

How much damage was done to elstern screens it is difficult to say, but all the oil and a good deal of the sait in the gutters was washed away. Nevertheless the fever fight is now considered to be so well in hand that even the creation of fresh breeding places for mosquitoes causes little alarm.

President's Reception.

President's Reception.

President's Reception.

The plans arranged for the President's entertainment if he comes here on October 24th, have been arranged with a view to his protection, and he will not be taken into, any of the infected districts. He is to have a military and civic reception, to be escorted from his train to the City Hall, where he is to nake an address to the citizens, then taken to his hotel, where there is to be a hanquet at night, and the following morning is to have a ride through the harbor on an ocean steamer before he boards his special train on his departure.

The new mosquito ordinance has been passed by the City Council. It represents the work of the best sanitarians, lawyors and officials here, and has the endorsement of the Federal authorities who were consulted in its preperation.

Fumigating Schools.

who were consulted in its preparation.

Fumigating Schools.

Fumigating gangs to-day were put to work in the various public school buildings with a view to their complete disinfection in time for opening on Monday. There are about sixty buildings which will have to be treated.

Second Vice-President J. T. Harahan, of the Illinois Central Railroad, reached here to-day, and went immediately to the Stuyvesant docks for an inspection of the work of rebuilding there. Everything has been burried in order that the road may be able to handle its export trade without interruption. Mr. Harahan found the facilities ample for handling the immense grain, cotton and other traffic which has already started this way.

"Of the questions which were open when we started on this trip and in the settlement of which it was noped the trip might lend aid, one was the establishment of a special tribunal for the hearing of disputed questions in relation to possession of churches and rectories and cemeteries. I am glad to say that before we reached the islands a satisfactory law had been enacted, which, it is hoped, will rapidly dispose of these cases. The law refers the issues directly to the Supreme Court.

"There was also remaining unsettled a question about the title to one-half of the Friars Islands-those owned previously by the Dominican order. After a conference with the representative of the vendors a satisfactory compromise was affected by which good title to the lands will be immediately conveyed to the government and possession is in the vendors, and the difference as to price, a matter of some \$200,000 will be left to adjustment by arbitration.

Chinese Boycott.

"With reference to the boycott in Canton and China, I am not sufficiently advised to speak with great authority. My impression is that it will fade out because of the necessity that the Chinese mercannts are under of patronizing America to sell what will be in great demand in Manchuria. Chinese merchants themselves are losing money, and their influence is not likely to further it. Suggestions were made of possible amendments in the exclusion laws, which, without in any way opening the doors to the coolle class, would remove the stigma which the present regulations, it is insisted, put upon the classes entitled to enter. I have those suggestions from merchants in Hong Kong and claswhere and shall present them to the President. The President's proclamation and assurance that justice would be done the Chinese, had an excellent effect.

mation and assurance that justice would he done the Chinese, had an excellent effect.

"Many of the people in Japan are disappointed at the terms of peace, but the great sober majority of that people, I am sure, are deeply grateful that peace has come and grateful to President Roosevelt for his assistance in hringing it about and conscious of the fact that Japan was under a great strain and that true statesmanship required that when she could make an honorable peace she should do so. There is not, if my judgment, the slightest fear that the people of Japan will not continue to be as friendly to America and Americans as our recention in July showed that they were then.

"Of course, it is too soon to speak of probable legislation by Congress upon Philippine matters, but I am sure that the trip has added greatly to the interest in Philippine questions which will be taken by members of Congress who were in the party, and that the more accurate information which they now have will lead to wise and intelligent legislation.

NEW YORK, Sept. 27.—The pending investigation of life insurance conditions shows that there has never been any attempt at concealment of the relations of the Mutual Life to the trust companies and banks in which its deposits have been made. All the company's annual reports and its statements to the superintendents and commissioners of insurance in all the States have contained a complete list of its holdings of stock in these institutions and have shown the cost and market values of the stocks. Deposits in these institutions have increased the values of their stocks and the company's policy-holders have benefited to the extent of over fif-

Ayers Are Here.

Congressman lial D. Flood, of Appomaticx, and former Attorney-General Rufus A. Ayers, of Whee, were in the city yesterday and were callers at Democratic headquarters.

General Ayers was in good spirits over the outlook for Democratic success in his end of the State, and said the party would make a good showing this fall.

Mr. Flood was gathering some data with the view to entering the campaign, and was in good spirits over the outlook. He goes to Rocky Mount to make his first speech next Monday. When asked concerning the situation in the Tenth District, Mr. Flood said he was quite well satisfied with conditions, though some work was needed in Buckinsham and Nelson counties. There is talk of having ralles and barbecues in both counties before the fight is over.

SPEAKS AT RADFORD

Greeted With An Excellent Audience-Messrs. Hoge and Heermans Talk.

(Special to The Times-Dispatch.) EAST RADFORD, VA., September 27 .ludge Lunsford L. Lewis, Republican candidate for Governor, was welcomed to Radford to-night by a representative audience, one including prominent Democrats and a number of ladies. Ex-Gover nor and Mrs. Tyler being among the num

Judge Lewis was introduced by Mr C. A. Heermans, candidate for the Legis lature from Montgomery, and held closest attention of his audience in s speech of an hour and a half.

His speech followed the lines of his address at Pulaski last night, dealing with the newspaper attacks, charging him with inaccuracy of statements re

him with inaccuracy of statements regarding the Pulaski schools, Democratic frauds, etc., and accusing him of being a Republican under the reconstruction regime. His replies showed the speaker to be a candidate conducting his campaign along the highest lines.

Judge Lewis said that just before entering the hall he was handed a copy of this morning's Times-Dispatch, in which a good deal was said about his official letter to President Grant relative to sending troops to Petersburg. He said that he acced upon the evidence before him, and that he merely did his sworn duty in the premises, for which he had no apology to make to any one. He said it amused him to see the desperate efforts of the Democrats in the campaign to divert attention from the record of their party.

Judge Lewis made a fine impression, though exceedingly weary from constant traveling and speaking.

though exceedingly weary from con-stant traveling and speaking.

He was followed by S. H. Hoge, of Roanoke, who made a brief but eloquent Roanoke, who made a brief, but eloquent speech that was well received, and by Mr. Heermans, who also made an effec-tive short speech, and, like both of the other speakers, was enthusiastically ap-plauded.

SPEAKING IN GILES.

Democrats and Republicans Have Speaking at Pearisburg. (Special to The Times-Dispatch.) PEARISBRUG, VA., September 27.—

The campaign opened most auspiciously for the Democrats here on Tuesday Judge Lewis, Harris Hoge, Colonel Browning and Colonel Slemp were here for the Republicans, Judge Lewis made dignified speech, calling special atten

for the Republicans. Judge Lewis made a dignified speech, calling spechi attention to his own goodness, and arralgned Mr. Swanson for telling the Hanover people that he (the Judge) was an old time "reconstruction" Republican. His excuses and spologies, while apparently satisfactory to him, were not skitsfactory to many of the people. Harris Hoge made a vigorous speech, which was well listened to, and Colonel Browning waxed humorous several times. Colonel Slemp made some ugly threats characteristic of his disposition.

The Democratic speaking began at 2 o'clock. Mr. W. M. Minter, of Pocahontas, led off in a strong speech of about thirty minutes. He was followed by Mr. James Alston Cabell, of Richmond, who entertained the audience in his usual happy style. Mr. Cabell is favorably known in Glies county, having lately been here in the cause of education. Judge Samuel W. Williams closed the speech-making for the Democrats in one of the most powerful arguments ever heard in this court-house. His indictment of the Republican party was the most effective ever drawn here. His speech was powerful and did a great deal of good.

Swanson, St. Clair and Williams will carry Glies by a good majority. The Republicans are demoralized, and cannot gather themselves together again.
